Continuation of 2. NOTE: Applicant's amendment, remarks filed 8/4/03 are acknowledged and considered. It is noted that Applicant has canceled claims 1-9, 15, 16, 18 and 21-23, amended claims 10-14, 17, 19 and 20 and added claims 24-64. The claims as amended are directed to compounds of Formula II, IV and specific formula of claim 19 and to a method of antagonizing or agonizing a C5a receptor, method of treating an inflammatory condition or method of treating arthritis by administering or contacting the above compounds thereof. Amended and newly added claims raise new issues with respect to the scope of the claims since the claims are now limitted to speicfic compounds administered in vivo to treat an inflammatory condition or arthritis or contacted in antagonizing or agonizing a C5a receptor. However, such in vivo administration to treat the above situations were not dealt previously, and as such would require further consideration and search. Thus, since the amendment filed 8/4/03 (Paper No. 25) was not entered, the previous rejection under 35 U.S.C. 112, first paragraph for claims 1-23 is maintained for the reasons of record.
